---

`tfrmtduilder`*Run tfrmtd Builder Shiny App*

---

**Description**

Run tfrmtd Builder Shiny App

**Usage**

```
tfrmtduilder(tfrmtd = NULL, data = NULL, mockmode = TRUE, run = TRUE)
```

**Arguments**

<code>tfrmtd</code>	tfrmtd object to be loaded into app from R session. Defaults to NULL
<code>data</code>	data frame to be loaded into app from R session. Defaults to NULL
<code>mockmode</code>	Whether to initialize the app in mock mode. Defaults to TRUE
<code>run</code>	Boolean for whether the created object should be run directly. Set to FALSE for deployment

**Value**

Shiny app for creating and modifying tfrmtd objects

**Examples**

```
if (interactive()){  
  tfrmtduilder()  
}
```
